

## CDT E/0-10

Speed control for EC motors

- Casing material: Plastic

|                             | Unit of measurement | CDT E/0-10 |
|-----------------------------|---------------------|------------|
| Minimum supply voltage      | V                   | 10         |
| Maximum supply voltage      | V                   | 48         |
| Power supply frequency      | Hz                  | 50/60      |
| Weight                      | kg                  | 0.12       |
| Ambient air temperature max | °C                  | 35         |
| Ingress protection rating   | -                   | IP40       |
